NOW IS THE RIGHT TIME TO UPGRADE TO eSHIPPING.

sheets here

The right eShipping solution streamlines your work processes, reduces administration and simplifies your day.

A PORTFOLIO OF SOLUTIONS .

DHL Express is constantly committed to your shipping needs. Naturally, our commitment also covers how you ship: paperwork and shipping procedures, shipment data management, as well as the back-office shipping process.

Our new range of solutions is tailored to suit specific user profiles: everyone from consumers or small businesses to the mailroom or warehouse to industrial manufacturers. In addition, our eShipping solutions are free of charge and, where applicable, integrable with your existing IT system.

Stay ahead of the competition.

No matter which solution suits your business, you can:

- increase efficiency and simplicity when shipping
- save time by eliminating duplication and paperwork
- increase visibility and control over your shipments

Switching to DHL's eShipping solutions means you are always among the first to benefit from the most up-to-date information, transit-time enhancements, current customs documentation and regulation changes, secure account management and real-time reporting.

THERE IS A SOLUTION THAT SUITS YOU PERFECTLY.

Every business is different. And every individual has a variety of shipping needs.

So we've taken our breadth of experience, as the global leader in express deliveries, working closely with customers like you, to create a range of eShipping Tools to address all of these needs.

What are you looking for?

- **Online Shipping** – a quick and simple way to ship for relatively small shippers with urgent or unplanned shipping needs
- **Shipping Management** – smart, user-friendly eShipping Tools for mid-size and large businesses with regular shipments and more advanced needs
- **Integrated Solutions** – the ultimate solution for creating a truly seamless supply chain or shipping processes that works the way you do, thanks to direct data transfer and integration into your business systems

Professional shipping eases my day.

Our eShipping solutions are designed to fit in with your busy day. They free up time by making your shipping process more efficient, so you can focus fully on what you need to do.

Innovation that provides efficiency.

With DHL's range of eShipping solutions, you have the power to upgrade the way you ship as a small business or innovate the way your entire company handles shipping. Quite simply, if you want to achieve efficiencies, then we can provide an e-Shipping Tool for the task at no cost.

For more info about eShipping solutions please visit www.dhl.xx.

Accessible and easy to use.

The company that made express shipping easy, now makes the entire shipping process easy. Select the solution that suits you best and discover the benefits.

Online Shipping
